

eMenuManage®

by Ben E. Keith Company

Web Based Menu Management System

eMenuManage® is Ben E. Keith's web-based menu program specifically designed for all segments of the foodservice industry. With an easy to use interface and robust features, the system is your complete resource for planning and analyzing menus and recipes. Cross functional features allow you to manage inventory all the way through to production while controlling production cost and profit.

Everything you need to know about the food you serve is right at your fingertips. All you need is a computer with internet access and the desire to take control of your menus and your business.

- ◀ System integrates inventory, cost, diet and nutritional information to provide a custom solution to fit your operation
- ◀ Operators manage their own user rights to access and modify data
- ◀ The web application and data are maintained in a professionally managed and secure environment

eMenuManage® The Custom Solution for:

- ▶ Long Term Care
- ▶ Assisted Living Community
- ▶ Retirement Community
- ▶ Community Hospital
- ▶ Senior Meal Program
- ▶ Juvenile or Rehab Facility
- ▶ Headstart and Day Care Program
- ▶ College/University/Private School
- ▶ Camp
- ▶ Restaurant
- ▶ Banquet/Caterer

Manage Budget

Cost & Nutritional Analysis

- Costs are associated to your actual invoice pricing
- Complete nutritional information on each ingredient, recipe and meal is available
- Analyze cost and nutrition by ingredient, recipe, meal and menu
- Products and recipes may be flagged for common allergies

Inventory and Order Management

- Manage inventory with unlimited storage location set up to your preference
- Order quantities needed are compared against on-hand inventory to create a grocery cart
- Place your order via KeithNet Direct Order entry with a single logon
- For Healthcare: Tray card system functionality determines exact ordering needs based on patient/resident preferences, diets, and texture modifications
