

# Markon's Ready Set Serve Margarita Mix

## RSS Lime Juice and Margarita Mix.

- RSS Lime Juice: half gallon/6-pack and gallon/4-pack
- RSS Margarita Mix: gallon/4-pack
- No artificial ingredients
- RSS juices are gently pasteurized; this process eliminates any harmful bacteria that may be present, but does not destroy the enzymes, flavor, or nutritional value of the juice
- Our RSS Margarita Mix is ready to serve—no mixing, no mess, no waste
- It's ready to serve—no mixing, no mess, no waste
- Check out this [lime-a-rita recipe](#) that's great for Cinco de Mayo.

# Menu Ideas: Cinco de Mayo

## Strawberry Margarita Mocktails

Serves 6

32 oz. Ready-Set-Serve Margarita Mix  
2 C Markon First Crop Strawberries, chopped  
16 oz. club soda  
Lime wedges, garnish  
Coarse salt, garnish

Purée the margarita mix and fresh strawberries; stir in club soda. Serve in margarita glasses that have been dipped in salt and garnished with fresh lime wedges.

For a frozen version, substitute the club soda with 6 cups of crushed ice. Purée all until mixture is the consistency of a frozen drink; serve.

# RSS Juice Benefits

- 100% natural ingredients—not from concentrate
- No artificial preservatives, flavors, or sweeteners
- Non-GMO; Gluten-free
- Our margarita mix is made with pure sugar and not corn syrup
- Variety of types and flavors to suit your customer’s beverage needs
- They are the perfect foundation for cocktails, specialty beverages, sauces, dressings and desserts
- Gently pasteurized for safety and full flavor
- Less labor more yield!
  - Takes less prep than in-house juicing
  - 100% yields vs. commodity juicing
- Packed in HDPE unbreakable bottles and our eco-friendly recyclable, wax- and staple-free cartons
- Backed by Markon’s 5-Star Food Safety® Program

It takes A LOT of fruit to make juice!

Operators are creating signature “fresh” cocktails to differentiate their brand and Markon RSS juices deliver the pure taste and aroma of fresh-squeezed fruit, minus the operational hassles, food safety concerns, and consistency issues of squeezing fruit in-house.
